

## **Alberto Fornaro**

Bio:

Graduated in Chemistry in 1986, he covered at first technical and then commercial roles at various multinationals, such as Shell, Kraton Polymers and more recently TotalEnergies Corbion, dealing with several types of polymers.

He currently manages sales and business development of Luminy® PLA bioplastics in Italy and south-eastern Europe for TotalEnergies Corbion. With his vast experience in polymers, Alberto believes PLA is a key sustainable alternative to fossil-based plastics.
